

# Classic Wild Fusion

## Classic Wild Fusion

A nod to minimalism

This car fragrance in the form of a classy pendant with a decorative lacework is made of wood that delights with its aesthetic values, while acting as a perfect natural fragrance carrier.

When designing the Premium Collection fragrance line, we decided to work on first-class, exclusive perfumes. These inspirations translated into special, rich and long-lasting scents that provide a unique experience to every driver and passenger.

Experience an exquisite CRYSTAL GLOW fragrance: the olfactory tale that Crystal Glow tells begins with exotic saffron wrapped in jasmine. The heart is warmed by deep accords of amber wood and ambergris. The base is created by a dash of balsamic resin and majestic cedarwood.

- **minimalistic design**  
elegant pendant made of high-quality wood
- **Neutra Boost®**  
long-term, effective neutralisation of unpleasant odours
- **unique and long-lasting fragrances**  
inspired by exclusive perfumes
