We combine power of science and technology

Meet Neutra Boost® - an innovative technology of unpleasant odour neutralisation.

Our sense of smell is particularly sensitive to bad odours, as their role is to warn us of danger. We found molecules responsible for bad smells, i.e. amines, thiols, sulphides or aldehydes. The reliable Neutra Boost® formula effectively eliminates them ensuring long-lasting freshness. Neutralises unpleasant odours no matter the source.
Pet odours / intense food aroma / cigarette smell / sweat

Neutra Boost® - feel the difference!

Feel the difference

Lucky Pin

Your daily dose of joy

Trendy colours

Select a colour that you love and jazz up your car's interior.

Neutra Boost®

Long-term, effective neutralisation of unpleasant odours.

A hanging accessory or a clip

Use it the way you like it: hang it from the rearview mirror or clip to the air vent.

Lucky Pin is something more than just a car fragrance.

Available in lively, optimistic colours, it brings a spark of joy inside every car. Lucky Pin can be hung from the rearview mirror or discreetly clipped to the air vent - the way you prefer it.

Each of seven bestselling aromas contains the innovative Neutra Boost® technology that captures the molecules of unpleasant odours and effectively neutralises them. Thanks to that you can enjoy freshness and your favourite fragrance for up to 45 days.
